Background

Cage aquaculture, particularly offshore cage aquaculture, is an important model in the field of aquaculture. With the increasing emphasis on environmental conservation, offshore cage aquaculture is expected to be a significant direction for future aquaculture development. It serves as a crucial means to ensure the supply of high-quality aquatic protein for human consumption. To promote networking and collaboration among stakeholders involved in fisheries and aquaculture production, research, and development across Asian countries, the Asian Fisheries Society (AFS), Hainan University (HNU), Shanghai Ocean University (SHOU), China-ASEAN 'The Belt and Road' Joint Laboratory of Mariculture Technology, and the Center for Ecological Aquaculture (CEA) will jointly host the 7th International Symposium on Cage Aquaculture in Asia (CAA7) in Haikou, Hainan of China from November 29th to December 2nd, 2023.

Hainan, located in a tropical region of China and surrounded by the South China Sea, possesses unique advantages and conditions for the development of offshore cage aquaculture and other forms of cage aquaculture. It has a marine area of 2 million km² and has been at the forefront of deep-sea cage aquaculture in China. Hainan's achievements in the field of cage aquaculture have garnered significant attention both domestically and internationally. Additionally, HNU has made remarkable progress in the areas of fisheries and aquaculture. Currently, Hainan Province is actively developing the world's largest free trade port and has implemented a visa-free entry policy for delegates from 59 countries. This policy greatly facilitates attendance at conferences and ensures convenience for participants.

The AFS aims to promote networking and cooperation among scientists, technicians, and all stakeholders involved in fisheries and aquaculture production, research, and development in the Asian region. The CAA7, jointly organized by AFS, HNU, and other co-organizers and sponsors, seeks to summarize the current status and experiences of cage aquaculture in Asia and worldwide. It will also address the challenges and future areas of development and direction. The symposium aims to

facilitate the upgrading and healthy rapid development of the cage aquaculture industry in Asia.

The symposium will feature presentations by representatives from China, Philippines, Malaysia, Indonesia, India, Thailand, Australia, and other Asian countries and areas. We cordially invite deans, experts, young scholars, representatives of aquaculture production-related enterprises, as well as doctoral and master's students from relevant institutions in fisheries and aquaculture in China and other Asian countries to attend the symposium.

Theme and Schedule

1. Conference Theme and Session Conveners

“Sustainable Development of Cage Aquaculture in Asia”

Session I: Production Systems

Conveners: Budy Wiryawan, YANG Hongsheng, LIU Ying,
GUAN Changtao

Session II: Breeding and Seed Production

Conveners: Kuldeep K LAL, HU Wei, MA Aijun, XU Peng, BAI Zhiyi

Session III: Nutrition and Feed

Conveners: Nur Leena WONG, XIE Shouqi, TAN Beiping,
HUANG Xuxiong, AI Qinghui

Session IV: Carbon sink and fouling organisms

Conveners: Wilfredo CAMPOS, YANG Yufeng, LIU Tao,
DONG Bo, YANG Jinlong

Session V: Health and Environment Management

Conveners: Murni Marlina Abd KARIM, HUANG Jie, ZHANG Yongan

Session VI: Economics, Gender, Livelihood, and Policies

Conveners: Alice Joan FERRER, Hillary ENGA, ZHANG Wenbo

2. Conference Schedule

Nov. 29th: 2023: Registration;

Nov. 30th: 2023: Morning - Opening ceremony and plenary sessions,
Afternoon - Parallel sessions;

Dec. 1st, 2023: Morning - Parallel sessions,

Afternoon - Parallel sessions, selection of Outstanding Young Scholar's Reports, and closing ceremony;

Dec. 2nd, 2023: Field visit to cage aquaculture facilities or departure.

3. Conference Format and Activities

The symposium will be held on-site, with online (via Zoom meeting) participation as an option for specially invited experts unable to attend in person. The conference will be conducted in English, and plenary speakers will have 25 minutes for their presentations, while other experts and scholars will have 15 minutes for their oral presentations. There will be a poster exhibition for showcasing significant research and production technology achievements.

To encourage young scholars to publish high-quality reports, a separate segment will be dedicated to recognizing and awarding Outstanding Young Scholars' Reports by the Conference Academic Committee, specifically catering to graduate students and young researchers (35 years old and younger). Additionally, this conference will include a Chinese-language communication session for some Chinese scholars and professionals in academia and industry to exchange ideas and present their work.

Visa Application Guide for Hainan

For accurate Visa Exemption Policies for China and visa application processing, please consult your local Chinese Embassy and Consulates. This website provides detailed information on Visa Exemption Policies for China

https://www.visaforchina.cn/BUH2_EN/generalinformation/visaknowledge/263512.shtml, and the related List of Agreements on Mutual Visa Exemption Between China and Foreign Countries can be found here http://cs.mfa.gov.cn/zlbg/tyxy_660627/t902373.shtml. We have also listed several important visa exemption policies below for reference by participants outside of China:

1. Hainan 59-Country Visa-Free Entry Policy Guide

- Travelers from the 59 visa-free entry-eligible countries may travel from or through Hong Kong or any other places outside Mainland China with a direct flight to Hainan (for tourism, attending conferences, and personal or group travel).
- The maximum length of stay for visa-free travelers in Hainan is 30 days (Singapore, Japan, and Brunei may stay no longer than 15 days).
- Travelers who need to travel to other parts of China must apply for a visa.

3. Citizens of Singapore, Brunei and Japan

A citizen of Singapore, Brunei or Japan with an ordinary passport is exempted

from a visa if he or she visits China's mainland for tourism, business, or meeting with friends or relatives, and if he or she enters China through ports open to foreigners, and stays for no more than 15 days.

However, a visa is required for citizen of these three countries under any of the following circumstances: (1) An ordinary passport holder visits China for tourism, business, or meeting with friends or relatives, and stays for more than 15 days. (2) An ordinary passport holder visits China for the purpose of study, work, permanent residency, official visits or news coverage. (3) A Japanese citizen travels with a diplomatic or official passport.

Abstract Submission and Sponsorship Invitation

The conference is currently accepting abstract submissions for research papers relevant to the conference theme. Abstracts should be written in English and limited to a maximum of 500 words. All submitted abstracts will be included in the conference handbook and considered for oral presentations. Attendees may request a certificate of attendance. Abstracts are required to format according to **Appendix 2**. The deadline for abstract submission is October 20th, 2023.

Other Relevant Matters

1. Sponsorship and Enterprises Exhibition and Networking: To ensure the successful organization of the symposium, we kindly invite aquaculture and cage farming-related enterprises to participate as sponsors. Sponsorship offers an excellent opportunity to showcase advanced technologies and innovative products, foster collaboration with international counterparts, and promote business development.

2. This conference is not limited to the cage aquaculture. We sincerely invite leaders, experts, scholars, and professionals in the fisheries and aquaculture-related fields to attend the conference. Please submit the completed registration form (**Appendix 1**) by scanning the QR code on the flyer. To ensure optimal reception, it is recommended to register by October 20th, 2023.

3. For abstract submissions and inquiries regarding sponsorship opportunities, please contact us according to the contact information.

4. Accommodation and transportation expenses during the conference will be the responsibility of the participants. Registered participants from the 1st round can send accommodation reservation and flight information directly to the conference email box caa7hn2023@163.com. Please also specify any dietary restrictions, if applicable.

Abstract: The purpose of this experiment is to study the characteristics of lipid changes during the ovarian development of Japanese eel (*Anguilla japonica*) and provide a reference for artificial reproduction. Through hormone-induced ovarian development, the fish were sampled at the early stage (group E), middle stage (group M), and late stage (group L), respectively.....
